PROFESSIONAL SUMMARY

Detail-oriented and motivated entry-level Data Analyst with hands-on training in Excel, Power BI, and SQL. Recently completed a 4-month intensive Data Analysis program at The Incubator Hub (DSA), where I applied data cleaning, visualization, and business analysis techniques on real-world datasets. Passionate about using data to uncover insights and drive better decision-making. Eager to contribute to data-driven teams through internships or entry-level roles.

SKILLS

- Tools: Microsoft Excel, Power BI, SQL, GitHub
- Techniques: Data Cleaning, Data Analysis, Dashboard Design, Business Intelligence
- Soft Skills: Problem-Solving, Attention to Detail, Communication, Critical Thinking

PROJECTS

- **HR Attrition Analysis**

Tools: Power BI

- Analyzed employee attrition data to identify key factors driving resignations

- Explored trends across job roles, age, departments, work-life balance, and income

- Built an interactive HR dashboard in Power BI to support HR decision-making

- Summarized insights into business-friendly recommendations

- **Amazon Sales Analysis**

Tools: Excel

- Conducted exploratory data analysis on product pricing and review patterns

- Compared actual vs discounted prices across multiple categories

- Built interactive dashboards for visual storytelling and insights

- **KMS Inventory Case Study**

Tools: SQL Server, SSMS

- Queried a relational database to assess order delivery timelines and customer behavior

- Performed aggregation and filtering to support inventory decision-making

- Created visuals and charts for reporting

All projects were completed as part of the Digital Skillup Africa Data Analysis Program. Final evaluation results and program certificate pending.

TRAINING & CERTIFICATIONS
